**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

Mr. Ken Ryneerson does have not authorization to act on behalf of the assignee because of his title as horticulturist of Poulsen Roser A/S. A horticulturist does not clearly set forth that person as an officer of the assignee and is not presumed to have authority to sign the submission on behalf of the assignee. See MPEP 324.

### **Drawings**

An Official Draftsman has approved the drawings.

### **Objection to the Disclosure**

#### **37 CFR 1.163**

The following is a quotation of section (a) of 37 CFR 1.163:

(a) The specification must contain as full and complete a disclosure as possible of the plant and the characteristics thereof that distinguish the same over related known varieties, and its antecedents, and must particularly point out where and in what manner the variety of plant has been asexually reproduced. In the case of a newly found plant, the specification must particularly point out the location and character of the area where the plant was discovered.

#### **35 USC § 112**

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

In plant application filed under 35 U.S.C. 161, the requirements of 35 U.S.C. 112 are limited.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

Art Unit: 1661

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

As specific to United States Plant Patent applications, the specifics of 37 CFR 1.164 (reproduced below) are controlling:

The claim shall be in formal terms to the new and distinct variety of the specified plant as described and illustrated, and may also recite the principal distinguishing characteristics. More than one claim is not permitted.

In plant applications filed under 35 U.S.C. 161, the requirements of 35 U.S.C. are limited. The following is a quotation of 35 U.S.C. 162:

No plant patent shall be declared invalid for noncompliance with section 112 of this title if the description is as complete as is reasonably possible. The claim in the specification shall be in formal terms to the plant shown and described.

The disclosure is objected to under 37 CFR 1.163(a) because the specification presents less than a full and complete botanical description and the characteristics which distinguish over related known varieties.

More specifically:

- A. Page 5, line 17, the recitation "Fig. 2.2; Bare stems" does not correspond with the attached photograph. Fig. 2.2 shows a photograph of a three leaflet and a seven leaflet. Correction is necessary.
- B. Page 5, line 18, the recitation "Fig. 2.3; Leaves" does not correspond with the attached photograph. Fig. 2.3 shows a photograph of two bare stems. Correction is necessary.
- C. If available, Applicants should set forth in the specification the average diameters of the peduncle and petiole.

Art Unit: 1661

D. Page 10, lines 9 and 16, the recitation "65D" does not appear to correspond with the attached photograph (Fig. 1.1 and Fig. 1.3) of the outermost and innermost, outer petals. It does not appear that the petals are light pink in coloration. The petals appear close to 54B. Clarification and/or correction are necessary.

E. Page 10, lines 12 and 19, the recitation "65C" does not appear to correspond with the attached photograph (Fig. 1.1 and Fig. 1.3) of the outermost and innermost, inner petals. It does not appear that the petals are light pink in coloration. The petals appear close to 54B. Clarification and/or correction are necessary.

F. Page 11, lines 5-6, the recitation with regard to the general tonality of the flower as 62C does not appear to correspond with the attached photograph (Fig. 1.1). The general tonality of the flower appears close to 54B, if accurate. Clarification is necessary.

G. If available, Applicants should set forth in the specification the average length of the styles.

H. Page 13, line 14, the recitation with regard to the color designation of the thorns, as "178A" is unclear. It is uncertain if this coloration is of the immature or mature thorns. Clarification is necessary by importing into the specification the color designation of the immature and mature thorns.

The above listing may not be complete. Applicants should carefully compare the claimed plant with the botanical descriptions set forth in the specification to ensure

Art Unit: 1661

completeness and accuracy and to distinguish the plant within this expanding market class. Any further botanical information should be imported into the specification, as should any additional or corrected information relative to same.

### **Claim Rejection**

#### **35 USC § 112, 1st and 2nd Paragraphs**

Claim 1 is rejected under 35 U.S.C. 112, first and second paragraphs as not being supported by a clear and complete botanical description of the plant for reasons set forth in the Objection to the Disclosure Section above.

### **Future Correspondence**

Any inquiry concerning this communication or earlier communications from the examiner should be directed to June Hwu whose telephone number is (571) 272-0977. The Examiner can normally be reached Monday through Thursday from 6:30 a.m. to 5:00 p.m.
